ARCHITECT

HOME

Civil Engineering is an art; a profession of creative ability and logic. Architect provides an opportunity for participants to unleash their innovation in designing an object of significance and splendor. This event aims to harness practical design and constructional abilities of the participants.

EVENT DESCRIPTION

Participants are required to prepare models for a predefined problem within a fixed time limit. The models will later be put to test and teams fulfilling the winning criteria in the best way will be declared winners. This event has attracted participants from various colleges and students from all disciplines can give it a shot.

FORMAT

The detailed problem statement will be given out on the spot. All materials required to make the model will be provided by the organizers. All the models completed within the given period, abiding the rules and regulations will be tested on the spot and evaluated by the judges.

ELIGIBILITY

o   The team can include a maximum of two members.

o   All members of the team should be enrolled as students in an educational institute.

o   No person can be a part of more than one team.
